KEY BENEFITS OF LINOLEUM

Durability

- Inlaid product construction
> **Long lasting appearance**
- Hardwearing
> **Adapted to high pedestrian and mechanical traffic**
- Micro scratch resistance
> **No problem with tearings and scratches**

Health

- Third part certified antiviral and antibacterial activity
> **Hygienic solution**
- Very low emissions
TVOC < 10 microgram/m³ after 28 days
> **Best indoor air quality**
- Neocare™ surface treatment (dirt and stain barrier)
> **Easy to clean**

Comfort

- Resilient and soft surface
> **Child friendly**
- Up to 19dB sound insulation
> **Acoustic comfort**
- Suitable for underfloor heating
> **Thermal comfort**

Design

- Selection of designs and colors
> **Freedom of choice**
- Matt effect
> **Contemporary finish**
- Mix and match possibilities
> **Creativity and differentiation**

LIFE CYCLE ANALYSIS

INDOOR AIR QUALITY

CIRCULAR ECONOMY

DLW Linoleum products are developed according to a Life cycle analysis (LCA) methodology:

- To assess the existing product impact on the environment through all stages of its life cycle.
- To develop new products specifically designed to reduce their environmental impact.

CARBON NEUTRAL*

Our CO₂ emissions are neutral during the first stages of the product life cycle, from the growing of raw materials to the end of the production process.

All the details can be found in our Environmental Product Declaration, which has been third part certified (EVEA laboratory) according to the guidelines of international certification body (UL).

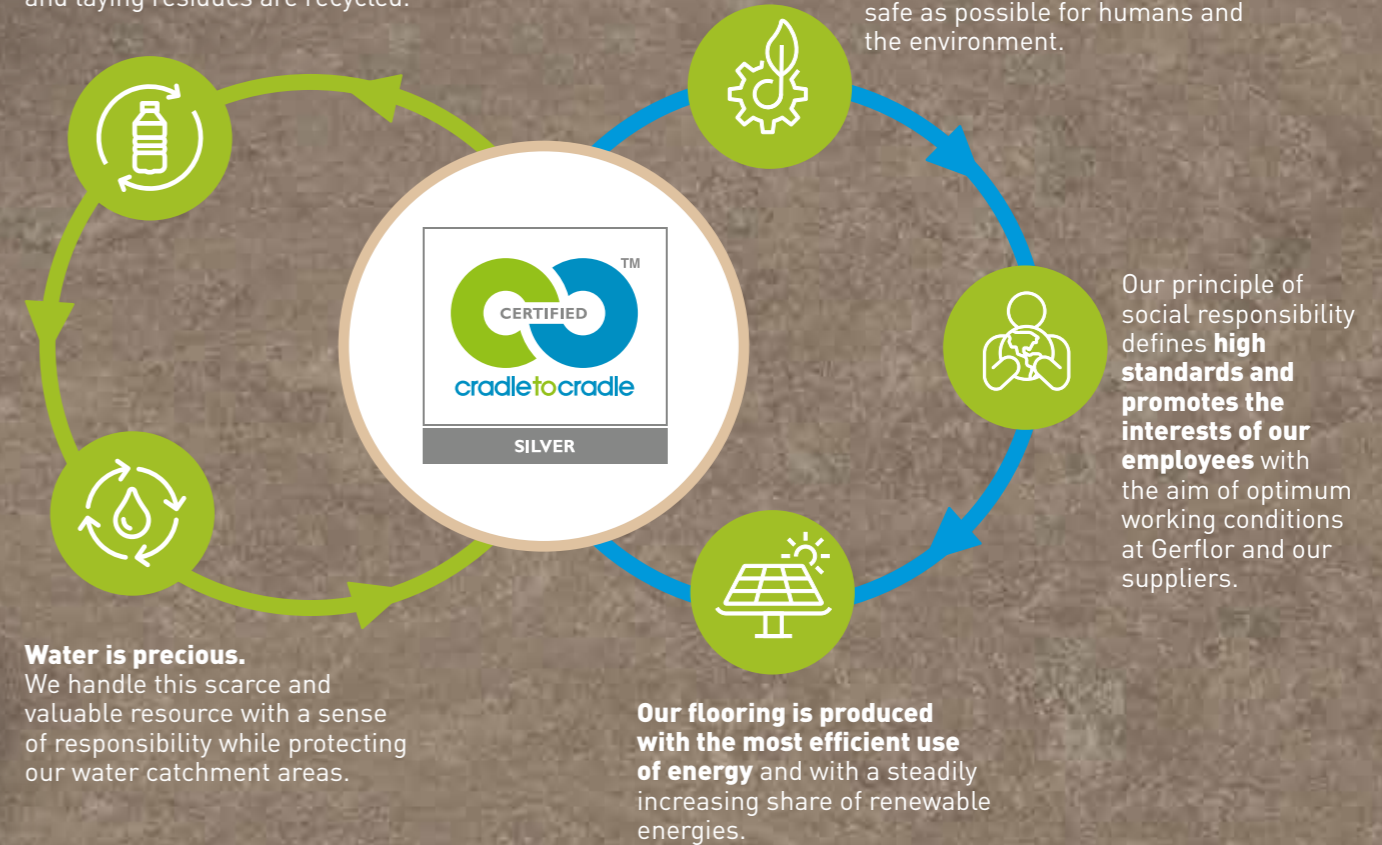

(*) From Cradle to Gate: includes raw materials and manufacturing process (A1-A3 stages of EPD)

CRADLE TO CRADLE CERTIFIED™ SILVER⁽¹⁾

DLW Linoleum consists of **76%** rapidly renewable raw materials, and contains up to **40%** of recycled content. **100%** of production waste and laying residues are recycled.

The products are manufactured **using raw materials** that are as safe as possible for humans and the environment.

(1) MARMORETTE, ARABESQUE, COLORETTE, UNI WALTON, MARMORETTE ACOUSTIC, LINO ART

Being **Cradle to Cradle Certified™ Silver** means our product was awarded certification based upon their performance across five critical areas of sustainability: Material Health, Product Circularity, Renewable Energy and Carbon Management, Water Stewardship, and Social Fairness. The certification is awarded by the Cradle to Cradle Products Innovation Institute.

Cradle to Cradle Certified™ products are designed for a safe, circular and responsible future economy. Gerflor's final target is to reduce waste, up to get "zero waste" meaning the waste can become available for a new product cycle.

Cradle to Cradle Certified™ is a product certification based on a design philosophy Gerflor adheres to follow this approach in the search for continuous improvement.

EXCLUSIVE

PROTECTIVE BY NATURE

NEW SOLVENT-FREE SURFACE PROTECTION DEVELOPED EXCLUSIVELY FOR LINOLEUM.

EXTREMELY HARD WEARING DUE TO TRIPLE LASER UV CROSS-LINKING

INDOOR AIR QUALITY

- Very low VOC emissions
TVOC < 10microgram/m³ after 28 days (ISO 16516)
- Certified according to the most demanding standards

NATURAL DESIGN MATT EFFECT

LPX / PUR / others...

neocare

EASY TO CLEAN

- Dirt and stain barrier
- Cost effective maintenance
- Easy cleaning with a mop or any modern cleaning equipment

Detailed cleaning protocol available on www.gerfor.com

Standard Linoleum

NEOCARE™

Marker				
Iodized alcohol				
Eosin				
Betadine				
	2H	24H	2H	24H

HYGIENE

DLW Linoleum floorings contribute to lower the microbe load (bacteria, virus, ...) and to minimise the risk of a contamination chain.

- Excellent resistance against disinfection chemicals
- Antiviral and antibacterial activity

ANTIBACTERIAL SURFACES

Tests conducted by a third part lab (Isega) according to ISO 22196 / JIS Z 2801 standard, prove that DLW Linoleum floorings with Neocare™ surface treatment have antibacterial activity against E.coli - S.aureus - MRSA: our surfaces **inhibit growth of bacteria by 99,99% after 24h**

ANTIVIRAL SURFACES

Tests conducted by a third part lab (Virhealth) according to ISO 21702 standard, prove that DLW Linoleum floorings with Neocare™ have antiviral activity against Human Coronaviruses : our surfaces **reduce the number of virus by 98.65% after 5h.**

DURABLE

- No sealing and waxing needed
- Higher scratch resistance
- Easy to repair: in case of heavily damaged flooring, DLW linoleum can be easily repaired using the spray buffing method (red disk)

WAXING

NEOCARE™ is a high performing surface treatment protecting against dirt, stains and scratches and does not require any sealing & waxing throughout the life of the product. Waxing remains an option.

COMPACT LINOLEUM neocare™

ARABESQUE is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2900g/sqm in 2.5mm. It features a marbled design and presents a matt finish, is composed of 98% bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric) among of which 76% are rapidly renewable.

LINO ART is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2900g/sqm in 2.5mm. It features a striated design (FLOW), a scattered metallic design (METALLIC), a scattered colour chips design (STAR), a concrete design (URBAN) and presents a matt finish, is composed of 98% bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric) among of which 76% are rapidly renewable.

COLORETTE is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2900g/sqm in 2.5mm. It features a speckled design and presents a matt finish, is composed of 98% bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric) among of which 76% are rapidly renewable.

ARABESQUE, COLORETTE, MARMORETTE, UNI WALTON, LINO ART

The floorings are produced with Neocare™ solvent-free surface treatment, an exclusive photo-cured acrylate based lacquer surface treatment obtained by triple laser UV cross linking. Neocare™ offers excellent scratch resistance as well as resistance to chemicals found in aggressive environments such as bleach, hydro alcoholic solutions, Betadine and Eosin as well as markers making maintenance easier and increasing the life of the flooring. This treatment avoids performing any polishing throughout the lifetime of the product. It can however be polished following usual recommendations and according to the customer's wishes.

MARMORETTE is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2400g/sqm in 2.0mm, 2900g/sqm in 2.5mm and 3800g/sqm in 3.2mm. It features a marbled design and presents a matt finish, is composed of 98% bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric) among of which 76% are rapidly renewable.

The products ensure perfect indoor air quality (TVOC at 28 days (EN 16516) < 10 microgram/m³) and are classified A+ (the best class) in the context of health labeling. It is Floorscore®, M1 and Blue Angel certified. The floorings are 100% recyclable, are composed of minimum 25% recycled content and up to 40% recycled content, 100% controlled, are REACH compliant and rated Cfl-s1 for fire resistance. Designed and manufactured in a sustainable way in a plant awarded with ISO 9001 (quality), ISO 14001 (environment) and ISO 50001 (energy) certifications, the floorings are Cradle to Cradle certified™ Silver. They are Environmental Performance Declaration (EPD) certified by an external laboratory indicating carbon neutrality during the first stages of their life cycle ("from cradle to gate"). The Camouflage (Arabesque, Marmorette) or Uni (Colorette, Uni Walton, Lino Art) welding rod makes the connections between the strips invisible. They are antistatic, antibacterial according to ISO 22196 / JIS Z 2801 and antiviral according to ISO 21702.

UNI WALTON is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2900g/sqm in 2.5mm. It features a uni design and presents a matt finish, is composed of 98% bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric) among of which 76% are rapidly renewable.

ACOUSTIC LINOLEUM neocare™

MARMORETTE ACOUSTICPLUS is a calendered linoleum acoustic floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 3500g/sqm in 4.0mm.

It features a marbled design and presents a matt finish, is composed of bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric), rapidly renewable and features a 1.5mm recycled foam underlayer, ensuring up to 19dB impact sound reduction.

COLORETTE ACOUSTICPLUS is a calendered linoleum acoustic floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 3500g/sqm in 4.0mm.

It features a speckled design and presents a matt finish, is composed of bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric), rapidly renewable and features a 1.5mm recycled foam underlayer, ensuring up to 19dB impact sound reduction.

MARMORETTE ACOUSTIC is a calendered linoleum acoustic floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 3900g/sqm in 4.0mm.

It features a marbled design and presents a matt finish, is composed of bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric), rapidly renewable and features a 2mm cork underlayer, ensuring up to 15dB impact sound reduction.

ACOUSTIC LINOLEUM

The floorings are produced with Neocare™ solvent-free surface treatment, an exclusive photo-cured acrylate based lacquer surface treatment obtained by triple laser UV cross linking. Neocare™ offers excellent scratch resistance as well as resistance to chemicals found in aggressive environments such as bleach, hydro alcoholic solutions, Betadine and Eosin as well as markers making maintenance easier and increasing the life of the flooring. This treatment avoids performing any polishing throughout the lifetime of the product. It can however be polished following usual recommendations and according to the customer's wishes.

The products ensure perfect indoor air quality (TVOC at 28 days [EN 16516] < 10 microgram/m³) and are classified A+ (the best class) in the context of health labeling. They are Floorscore®, M1 and Blue Angel certified. The floorings are 100% recyclable, are composed of minimum 25% recycled content and up to 40% recycled content, 100% controlled, are REACH compliant and rated Cfl-s1 for fire resistance.

Designed and manufactured in a sustainable way in a plant awarded with ISO 9001 (quality), ISO 14001 (environment) and ISO 50001 (energy) certifications, the floorings are Cradle to Cradle certified™ Bronze (Marmorette AcousticPlus, Colorette AcousticPlus) and Cradle to Cradle certified™ Silver (Marmorette Acoustic). Their Environmental Performance Declaration (EPD) certified by an external laboratory, indicate carbon neutrality during the first stages of their life cycle ("from cradle to gate").

The Camouflage (Arabesque, Marmorette) or Uni (Colorette, Uni Walton, Lino Art) welding rod makes the connections between the strips invisible.

They are antistatic, antibacterial according to ISO 22196 / JIS Z 2801 and antiviral according to ISO 21702.

LINODUR

HIGH MECHANICAL TRAFFIC RESISTANCE

LINODUR is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high pedestrian and mechanical traffic areas and has been designed to resist a 30kg/sqm dynamic load. Its weight is 4700g/sqm in 4.0mm. It features a moiré design and is composed of 98% bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric) among of which 76% are rapidly renewable. The flooring is equipped with LPX surface treatment, making the maintenance easy and the flooring long lasting. The Camouflage welding rod makes the connections between the strips invisible. It is antistatic, antibacterial according to ISO 22196 / JIS Z 2801. The flooring is 100% recyclable, is composed of minimum 25% recycled content and up to 40% recycled content, 100% controlled, is REACH compliant and rated Cfl-s1 for fire resistance. This product is manufactured in a plant awarded with ISO 9001 (quality), ISO 14 001 (environment) and ISO 50001 (energy) certifications. The product also benefits from international certifications such as Floorscore® and Blue Angel (emissions).

MARMORETTE LCH

DISSIPATIVE LINOLEUM FOR ESD AREAS

MARMORETTE LCH is a calendered linoleum compact dissipative floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its vertical resistance is $10^6 < R < 10^8 \Omega$. Its weight is 3000g/sqm in 2.5mm. It features a marbled design and presents a matt finish, is composed of 98% bio based materials (linseed oil, wood flour, resins, cork, minerals and jute fabric) among of which 76% are rapidly renewable. The flooring is equipped with LPX surface treatment, making the maintenance easy and the flooring long lasting. The flooring is 100% recyclable, is composed of minimum 25% recycled content and up to 40% recycled content, 100% controlled, is REACH compliant and rated Cfl-s1 for fire resistance. It is designed and manufactured in a sustainable way in a plant awarded with ISO 9001 (quality), ISO 14001 (environment) and ISO 50001 (energy) certifications. The Camouflage welding rod makes the connections between the strips invisible. It is antistatic, antibacterial according to ISO 22196 / JIS Z 2801.

CLEANING NEOCARE™-TREATED LINOLEUM FLOORS

Marmorette / Arabesque / Colorette
Uni Walton / Lino Art

 **Damp sweeping equipment**
Flexible mop preferably fitted with disposable, antistatic and/or pre-impregnated gauze strips

 **Manual washing equipment**
Disposable microfibre mop or gauze

 **Single disk machine**

 **Autoscrubber**

 **Mechanical cleaning disk**
3M (or equivalent) colour disks

	Equipment used	Cleaning products	Cleaning methods
First use Manual or mechanical cleaning	    or  if soiled	Neutral detergent or Alkaline detergent	<ul style="list-style-type: none"> • Damp sweeping • Mechanical washing at 160-200 rpm (with water recovery)
Daily cleaning Manual cleaning	 	Neutral detergent / Disinfectant detergent ⁽¹⁾	<ul style="list-style-type: none"> • Damp sweeping • Manual washing with flat mop • Rinsing
OR			
Mechanical cleaning	  	Neutral detergent	<ul style="list-style-type: none"> • Damp sweeping • Mechanical washing at 160-200 rpm (with water recovery)
Deep cleaning Mechanical cleaning	   or 	Alkaline detergent	<ul style="list-style-type: none"> • Damp sweeping • Mechanical washing at 160-200 rpm (with water recovery)

[1] In areas where disinfection is essential (e.g. operating theatres, hospital rooms, etc.), alternate between using neutral detergent and amine-free disinfectant detergent.

These cleaning instructions have to be adapted depending on traffic and location of the area.

In the case of **manual maintenance** and to offer you the best results in terms of hygiene and appearance, **Gerflor recommends that you use neutral and alkaline detergents with high wetting power** (complete spreading and cleaning of the entire floor surface).

Gerflor DLW flooring products are to be installed in full accordance with Gerflor DLW installation instructions and recognized trade standards.

An effective, regular cleaning and maintenance program is vital for retaining a high appearance level.

Gerflor DLW flooring products should only be used as floorcoverings.

Note: Gerflor DLW reserve the right to amend this specification without giving prior notice. For the latest versions of the technical specifications, check our website: www.gerflor.com

DLW Linoleum, Creative by Nature

At Gerflor, we believe that architecture has the power to improve people's lives.

Nature is our greatest source of inspiration. With the DLW Linoleum offer, we can provide architects with a collection of 159 colors, these are natural designs, that can enhance the sustainability and the creativity of their projects.

Made in Germany since 1882 and Cradle to Cradle certified™ Silver, the DLW Linoleum products are made of 98% bio based materials including linseed oil, wood, limestone, jute and resin.

It's simply our way of connecting people closer to nature.
